

From 2 May 2022 onwards SLO is Sonepar

Dear customers and partners,

SLO was founded in 1945 and it has been for the past three decades a member of the Sonepar Group; an independent family-owned European company with global market leadership in B-to-B distribution of electrical products, solutions and related services. Through the Sonepar network, we have built up Europe-wide co-operation in electrical distribution industry and have been able to utilise the network's best practices.

Sonepar has always believed in SLO's expertise and business in Finland and enabled the systematic investment in our future. We have expanded and automated our Central Distribution Centre, replaced our ERP system with the most state-of-the-art in the market and invested in digital tools.

Our further development will bring to contracting, industry and network construction better services and practices, wherein being kind to both the environment and people as well as sustainability play a major role.

SLO has long traditions in Finland and our personnel is known for their professionalism and competence. It is these qualities that we count on also in the future – we continue to invest in our personnel.

We want to bring SLO's local know-how and Sonepar's global cooperation even more strongly together - now also in the name of our company.

**On 2 May 2022 SLO will be Sonepar - the largest, most competent,
and competitive electrical distributor in Finland.**

Our official name in the Finnish Trade Register is Sonepar Suomi Oy, but we will be known as Sonepar. During the name change our digital channels and offices are open to customers without interruption. We believe that the name Sonepar will even better bring forth the benefits of the entire Sonepar network, as our goal is clear: Make it easy for our customers and our partners.

Yours in cooperation

Mika Höijer
Managing Director
SLO Oy (Sonepar Suomi Oy)
